

January 28, 2008

We are here to celebrate the end of dreams. We are in this place, which is all places, all places where there is a recognition, a celebration, a coming home; the end of dreams! We are here in this place, which is not a place in time or space, which is a place in your mind; it's a frequency it's an awareness., and it is arising in you, it is an inner-place, it is place in your mind where you have decided: Your dream is over.

We are gathered together in that recognition, in that realization. We are gathered together with that intention.

We share in that vision that has been given to us now. And that vision is a transitional idea. We look at today's lesson, and today's lesson will speak of a transitional idea; call it vision, call it light, call it love, call it communication or the awareness of an alternative that is not of this world.

It will be a transitional idea that will mature and ripen in you, and it will reach fulfillment, in you. That is what is happening here and now. This is what this provision is for.

This provision is a vehicle of A Course in Miracles; It is a provision, a gift, it's a gift from God, reminding you that the journey is ended; the dream is over.

The journey is ended where it began, and no trace of it remains. Where no illusion is accorded faith, the dream is over. That is a Course In Miracles.

This is the idea that you are using in order to remember God; in order to remember yourself. That memory is singular. It is singular in your mind.

It appears to be including everything, everyone, because it is inclusive, because there is nothing outside of you. Because there is only one of us, that is what makes it an inclusive idea and that is today's lesson.

What is today's lesson? God is in everything I see, because God is in My Mind. God is in everything I see...Jesus will call that the Spring-board for vision. It is the only requirement; the recognition that God is in everything I see. If I see something other than God, I am simply mistaken. That is all! Keep it simple: " I thought there was something else, but simply... I was mistaken"

God is in everything I see. It is a transitional idea; the spring-board to vision.

I love you guys. Thank you, thank you for joining us.

This is a memory, you are living in a memory, the memory of your awakening....that is what this is; it is not a place, it is a frequency...a vehicle for your awakening, for your enlightenment. And we are here together, remembering the truth, remembering God.

And we are going to use the words of A course in Miracles, we are going to use today's lesson, we are going to use all of the lessons that led up to today's lesson.

Everything, from the very first lesson.....this vehicle is the means by which you can, first recognize that you are dreaming this dream, this is the first requirement: I am the dreamer of this dream. I AM the dreamer of this dream!

It is all arising in me, all arising in my mind!

And Jesus is going to say in today's lesson that we learning to practice a new form of projection, where we are no longer attempting to separate ourselves but rather we are attempting to join with what we are seeing.

It is a new way of being in the world, instead of resisting fearfully what arises, we open to receive it.

And that opening is what love is. That opening is what communication is. That opening is going to be the practice. Rather than recoiling or retracting from what we see, we open into love. Learning to accept what we see as a reflection or a projection of our own mind.

Everything I see, is a projection of my own mind. God is in Everything I see, Because God is in My Mind. And that is going to be tomorrow's lesson.

The reason that God is in everything I see is because God is in my mind! And everything I see is a projection of my mind. Everything I see is a reflection of what is occurring within, or what is occurring in my own mind.

So you are learning to love what is here, rather than reject what is here. And this begins obviously, with the work book. The workbook of The Course In Miracles, which is a profound vehicle of enlightenment. It works!

The first twenty lessons break down this idea that what you are seeing has a limited meaning or a limited value. And then we are going to introduce the idea that why you are mistaken is that everything has total value. Because everything is an aspect of God; everything is God, you are mistaken when you see something else.

This is how we proceed in this transitional idea.

Now we are going to go to Today's lesson for a moment: God is in everything I see.

Here we are:

Lesson 29. God is in Everything I See.

The idea for today explains why you can see all purpose in everything.

Join with one thing, and you remember God. Join with one thing and you remember God...because if you are not separate from one thing, you are not separate from anything. Do you see how important it is to recognize that you are not different from what I am? Do you see, do you see how important it is to transcend the tendency to dissociate from what you see? I am not other than what you are. The light that you see in me is your own light.

You must transcend the belief that there is something outside of you that is aware, and you are not aware. There is something outside of you, that knows, and you don't know. It is not possible. I am looking right at the idea of enlightenment now. Why? Everyone is enlightened, if you are awake, everyone is awake. Because there is only one! You are not separate, separate from anything.

Do you see what is being offered to you here? Everything that is arising is arising in you, and if you see it in one, you will see it in everything. So you can sit and meditate on a glass of water: remember God and awaken.

Awakening is the recognition that you are the cause, you are the source. Yes...I am not the victim of the world I see, I am in fact the cause.

Now when you make the decision to remember, when you make the decision to join rather than dissociate, everything will join you there.

We are building a garden, a perfect example,...

What is going to happen in that garden? We are going to sit on that bench and remember God!

What is going to happen? Everything is going to join you there!

When you sit with that intention, everything is going to join you in that intention.

Why? Nothing is outside of you.

That is what is happening here in this place.

What is Cel?

Cel is just a transitional location, the place in which you come to in order to be joined by everything. Cel is the place that you come to when you are ready to join with everything....

Where you have grown tired of being afraid!

What is Cel? Cel is not a location. It is not a location in time and space, it's a frequency of wellness, a way of associating with yourself, and it will join others at that frequency, that are also associating in the same manner. That will be today's lesson!

You will join with those who are practicing today's lesson: God is in everything I see. You see? I am not separating myself from you.

Why? Because God is in everything I see, and if I separate myself from you, I am separating myself from God....I am not going to do that anymore. I am going to transcend that tendency, that fearful tendency to dissociate, to be afraid, to contract; rather, I am going to love, I am going to join. Alright...here we go...

It explains why nothing is separate, by itself or in itself. And it explains why nothing that you see, means anything.....

It means it has no meaning apart from God. It means that nothing is apart from God. Look at this with me. It will explain all the lessons we have done this far. Nothing you see means anything because it has no meaning apart from God. The meaning that you have given it, is wrong.

So what does it mean? It means God, everything means God. We are breaking down an old idea! ...In fact it explains every idea we have used thus far, and all subsequent ones as well.

This entire book says one thing:

What does it say: God is in everything I see, turn to any page.....God is in everything I see, God is in everything I see.....it is the spring-board for vision. It is the new way of seeing that is being offered you, not as a conception idea but as a tangible experience.

And the way it becomes a tangible experience is when you stop trying to observe it and you simply accept it as true.

There is no way that you can explain it. You can't explain it and observe it. God is in everything I see.....there is nothing you can do about it, all you can do accept it. All you can do is receive the gift, the gift of reconciliation that is being given you at this time in this place.

Do you see how the thought increases the frequency? It has nothing to do with the world; it is a frequency because it is true. God is in everything I see, not because I say so, but because God is in everything I see.

Alright, we are going to transcend concepts now....

.....Today's idea is the whole basis for vision.

You will probably find this idea very difficult to grasp at this point. You may find it silly, irreverent, senseless, funny and even objectionable. Certainly God is not in a table, for example as you see it. Yet we emphasized yesterday that a table shares the purpose of the universe.

Ok, there is no way that you can grasp that conceptually, but you can experience it. It is very easy in fact to experience it; remove all ideas what the table is and it will reveal itself to you.

Ok...we have a dog that shows up everyday here.

Where did he come from? He keeps coming back...

Where does he come from? He comes from God.

Why does he keep showing up? Because this is the place where you have decided you are going to remember God. So what happens? God shows up in the form of the dog.

You can say: it is only a dog.....no, no, no....be still for a moment and you will see that is not a dog. That is God, and it is quite evidently God.

It can't be explained, you can't touch it, it is not tangible you can just accept it and be glad; you can only breath and be happy, because God is beginning to reveal Himself to you in all , you thought, were familiar ideas, in the ways in time and space and what you see is that you were simply wrong.

This can't be simply that....but it can be miraculously, perceived by you, the instant that you decide that you no longer want to be separate from anything. It is a new way of seeing that Jesus is offering in this lesson. A new vision! Here we go....

....And what shares the purpose of the universe shares the purpose of its Creator.

Try today to begin to learn how to look on all things with love, appreciation and open-mindedness.

When you look upon your brother, he is not what you made of Him. I am going to look upon you with open-mind. Yes? What you are will reveal itself to me. Absolutely! That's what you are practicing now in this place! That is what this transitional location is, what Cel is. It is a place in consciousness where all evidence, all traces of association in time and space, have been removed. All it is, is an open space, the place where reality will reveal itself.

Now, that is a transitional idea. It's a frequency it's a way to see! Do you see?

What is Cel? It is Vision.

What is this place? It is Vision. It's not a location in time and space, it is a transitional idea. Ok?

Now that place is everywhere, everywhere. It is not locatable.

Where are you? I am in Venezuela. No you are not, you are in Cel, you are in transition. You are in the frequency of transition which is always everywhere.

But I am Wisconsin. No you are not, you are in Cel; you are in transition. No matter where you are, if you are hearing this voice, you are in transition. Yes because this voice is an effect of that idea; we call it the voice for God, the bridge. This bridge has been stabilized, here in this place.

Is it making sense to you now?

Good, here we go...

...Try then, today, to begin to learn how to look on all things with love, appreciation and open mindedness. You do not see them now. Would you know what is in them? Nothing is as it appears to you. Its holy purpose stands beyond your little range. When vision has shown you

the holiness that lights up the world, you will understand today's idea perfectly.

All you would have to do is see the dog. When you see the dog, that light will encompass the entire universe. You got it? That is vision, when you see it in one you see it in everything. Yes, because we are talking about light here, and this is what I am offering you. I am not offering a body identity or an association within time and space. I am not that. I am offering a greater thing. I am sharing my vision, and my vision has nothing to do with the context of your dream. It includes all contexts. So when the dog shows up the dog expands to include everything.

Say to me: I am not a body, I am free.

What am I? I am a frequency, a frequency of association, I am light and that light is all encompassing. I am just trying to get you out, to break free of your body idea. Vision is a requirement. Without vision it can't be done, without vision you will arrest seeing on the form and you will think that is all there is and you will try to join with the form. And that is not possible. Minds are joined body's aren't.

...And you will not understand how you could ever have found it difficult.
Begin with repeating the idea to yourself,

Here we go, let's practice together: God is in everything I see, God is in everything I see.....ok you are beginning to increase frequency...

... and then apply it to randomly chosen subjects about you, naming each one specifically.

Alright, let's do it...God is in everything I see, now look around you.....God is in the pillow, God is in the carpet, God is in the guy sitting next to me, God is in this book; God is in everything I see!

Here is what is going to happen when you begin the exercise: The perception of differences, which is the foundation of this world, that perception will change. You will no longer perceive differences, you will perceive one thing; Vision, that is what is being offered you. That vision is all encompassing; it makes no exceptions, no distinctions.

Say to me: Love makes no comparisons. I am trying to connect ideas for you. Love makes no comparisons. Look, I am seeing love wherever I look, I am making no differences. Now listen...this is going to be a tendency that arises in you.....

...Now try to avoid the tendency toward self directed selection, which may be particularly tempting in connection with today's idea because of its wholly alien nature. Remember that any order you impose is equally alien to reality.

...Your list of subjects should therefore be as free of self-selection as possible. For example, a suitable list might include:

God is in this coat hanger
God is in this magazine.
God is in this finger.
God is in that lamp.
God is in that body.
God is in that door,

God is in that waste basket.

God is in everything I see, God is in everything I see, God is in everything I see.....

What is happening here has nothing to do with what is happening here.

Why? Because God is in everything I see. What I think is happening here, is not what is happening here.

You see how you have a tendency to know what is going on?

God is in everything I see, everything....I love you guys..... thank you.

Nothing happens by accident, why? Because God is in everything I see!

You can look at it this way, we are all advanced practitioners...

Everything that arises is a test. Everything is testing you, to see where you are residing in today's idea.

Something happens, and suddenly you are distracted, suddenly you think that something other than today's idea is going on.

You think God can not be in all this confusion. Says who?

What is God? perfect chaos, we just said, there is no order. There is no order in God. God is perfect chaos, everything that is happening is God.

Do you get how this work now? Everything that you do as a human condition is to define what is going on, and you are mistaken.

Why? Because of today's idea!

I love you guys,

You can laugh with me, there is nothing going on, there isn't a teaching going on, everything that is going on is God. All that is being revealed to you is God. All you are doing is overcoming the tendency to believe that there is something else going on.

Alright....Hey look.....

Who is that?

Who just walked in the door? God! but not at a concept but as an experience.

What happened? Everything joined at you in the right instant. Everything is constantly verifying today's idea, when you open up your Vision to see that everything is verifying today's idea!

I say God and everything agrees with me.....I say God, and Emilio shows up.

I accept today's idea and Ana appears.

I accept the idea and the dog shows up.

You are starting to have this experience.

You are going to sit at the garden and remember God

All you are ever doing is remembering God. All you are ever doing is transcending or overcoming the idea, that there is something else. That is it!

Now, here is what this place is, here is what the Course in Miracles is: Obviously it is a living teaching, it is making adjustment, constantly making adjustments. In other words, you are getting glimpses of the light, it just happened, and now you return to the apparent familiar condition to your familiar association in time and space, but it is all changed. Yes?

Are you having experiences? Everything is changed. You got a glimpse of the light and now you return in you familiar association but it is different. It is changed!

What happened? It is been adjusted. It has been adjusted by the light. And that is what we are offering here; it is a continuing adjustment.

What is God? A continuum readjustment; this is what you call the Holy Spirit, the correction. Yes?

The corrective principle, it is continually making adjustments in your time-space identity. It is adjusting you, it is aligning you up.

What is it aligning you up with? The adjuster, that who is making the adjustments. Yes!

You call it Holy Spirit, vision. It is what we call Vision.

When you see, when you really see, all you see is the continual adjustment. This is why you are no longer concerned with the reflections. You have lost interest in your identification in time and space.

Everything is changing. You are simply allowing it to change. You have aligned yourself with the corrective principle, with this agency, with God, with what we call Holy Spirit.

Holy Spirit is the corrective agency.

Who am I? I am that corrective Agency that is correcting all of my ideas, all of my memories in time and space. Yes, that is what is happening right now.

You are living in a memory of that continuing conversion, until when?

Until all of your memories are converted or transformed to that agency, to the light.

The world disappears and of that we can not speak.

But you get a sense now, that you are moving in that direction. In other words, you have a sense that it is happening to you, yes?

You are learning to live within the context of that converting agency. You are learning to live within that context, and it is converting all of the content. Yes! You are allowing it to change.

Why are you here?

How did you get here?

How is it that you got to walk in that door? It's a miracle! No but I drove a car.... No, it is a miracle. You are here because you made the decision to associate with a transitional identity. In other words, you made the decision to hear God's voice.

The moment you made the decision to hear God's voice, He began to speak to you.

Now, there is light all around you.....taking this shape, taking the shape or the form that you can receive and understand.

Let me give you an example: When I made the decision it showed up in a particular formulation, what you call The Master Teacher. The Master teacher in my dream is a formulation of that transitional identity, let's call it for the Voice for God. So when the Master Teacher showed up for the first time, I heard it, I heard that Voice in the form of a recording. Someone gave me a recording and said to me, listen to this.(You know this story), and I placed it into the tape recorder and I sat to meditate and I started listening to the voice, the voice of Master Teacher....no, the voice of God. Not the voice of Master Teacher, the voice of God!

How did I know it? Well, I entered into an experience, it affected me immediately! I came into

that frequency and I vibrated into that frequency, and what happened? Questions began to arise in my mind, and as they arose, the voice, His voice, answered them in the form of the taped recording. Now somewhere it is obvious the the physical-ness of the old man must be an agency of the Correction, or it/he could not be hearing my prayers and responding! Somewhere the physical-ness of him has been submitted to that presence...

How did that happen? It was a taped recording from a long time ago.....no, no, no the voice is being given me now, responding to the questions that are arising now!

What is this voice? This voice is that voice responding to your questions now. All of your questions about who you are, what you are, what you are doing here; they are being answered now, by this voice!

This voice is that corrective principle! You got it?

Is this what is happening to you? It is happening anyway. Everything is ; God is in everything I see.

God's voice speaks to me though out the day. All I am doing is increasing your awareness of it. I am not letting you get away from it. I am not pretending that there is something else going on, there is nothing else going on!

All that is happening is God speaking to you in everything. God is revealing Himself, and therefore Yourself to you in everything, and all you are doing is learning to receive. We call this; opening to the descent of Grace! Yes?

What is A Course In Miracles doing? It is teaching you the disposition that is required in order to receive the grace that is given you in every instant, or in this instant, which is the only instant there is.

Now we are at the threshold, yes? At the birth Place of Dreams, that is what I am offering you. That is what Cel would be. Cel is The Birth Place of Dreams, the place where dreams begin and end!

What does Jesus say about this? The journey closes ending at the place where it began.

This is that place.

Is it a place in time and space? Well, are you a place in time and space? We are talking about an identity, talking about a frequency.

I love you guys, thank you. Thank you. Is everyone with me?

Alright, yes, yes, thank you.

Now listen... you are getting the answer that you are asking for.

Let's finish today's lesson because I've got a lot to say, I could go on all night.

.....Repeat the idea for today at least once an hour, slowly about you as you say the words unhurried to yourself. At least once or twice, you should experience a sense of restfulness as you do this.

Yes? As you practice the idea....God is in everything I see; as you practice the idea, you should be at peace, this is what peace is. This is the frequency now, I am offering you the frequency, an element or an aspect of this frequency is peace. Because the conflict associated with your tendency to see differences, is being resolved in you. God is in everything I see. You do not need

to make decisions; you do not need to make choices. In fact what is being given you, at this frequency is freedom from choice.

This is the opposite of what you have been taught as a human being. Everything you were taught is you are free to choose. I am saying: you are not free to choose! You will be whole and perfect as God, no matter what you choose. Do you see?

Do you see? I am offering you freedom from choice, and that is going to be today's lesson, and if you are not at rest, if you are not at peace, you have refused the idea, you have refused the gift. That is all I can tell you. The gift will still be there, because it is true. I love you guys. A little bit from the next lesson, because they go together, yes? They go hand in hand.

Lesson 30. God is in Everything I see Because God is in My Mind.

God is in everything I see, why? because God is in my mind, God is in everything I see because God is in my mind, and because God is there, God is with me.

Where is God? In everything I see....but where is God? In everything I see!

Do you see? I love you, all you are learning to do is transcend your resistance to this idea.

All you are going to say is God is not certainly in...my conflicts, or in the middle East.....God is in everything I see because God is in my mind and if I am not at peace, I am simply mistaken.

I am seeing something, Jesus says that isn't there.

We call this a dream or an illusion. Exactly that illusion, right there, is the one that is being corrected, aligned....the light has come!

I am here with you within the content of your dream offering you an alternative. And that alternative is light. And no matter where you are, no matter where you think you are, God is with you, no matter where you think you are, God is with you.

I am relentless, I won't let you rest until you are at peace. That is nice! I am not going to rest until you are at peace. If you are not at peace, I am going to disturb you....yes! Of course, I disturb you until you are no longer disturbed. That is God. That is the voice for God, that is the corrective principle, that is me and that is also you.

Thank you, I needed that...I am going to drink this and disappear, I'll be back in a second.

Alright, what do we call that? Teleportation! I just teleported myself, and you along with me into the future!

You are in a future reference of yourself!

But I am..... No, you are not, you are in a highly different temporal reference, we just traveled through a wormhole and appeared later in time.

What that Jesus calls that? A Miracle! A miracle is a wormhole. That is what it is. A portal to another time-space reference!

As long as you find yourself in time and space, you need a miracle. A Miracle speeds up time. It is transporting you to a new reference.. I am that agency. I am bringing about a continual teleportation, to a future reference. Yes?

That is what I am doing. I've got you, and I am holding you and I am taking you with me to a

future self. Everything will be different. Everything will change and if you begin to open up your sight you will see that everything has changed. It will be self evident for you, you will see that that is all is going on, you are being offered a gift of a future reference of your collapse of your space- time identity, so that you emerge further along in time.

The Old Man used to teach this as: I have snipped out that time space reference. You don't have to do that anymore. I have relieved you of that burden. Essentially, everything you do in time and space is a burden. You are burdening yourself with space-time. What I am trying to do for you, if you let me, is relieve you of that burden.

Bring me your burden, because my burden is light. All I am offering you is light.

I already know what you are doing in there. I've already done it all, and I have transcended it all, up to and including the end of dreams. Yes, that is why I am offering you that. I am offering you the Alpha and the Omega, as a transitional idea in your mind. I am representing that for you, for just an instant, just as Jesus is representing that for you.

He is representing the Alpha and the Omega until you accept it for yourself.

Jesus is the atonement principle, and He is representing that for you until you accept it for yourself. So your function here with me is to accept atonement for yourself!

Say it with me now: I accept atonement for myself. Yes, but there is only one of us saying that.... That is what atonement is. That will resolve all differences! I am really trying to help you, I am trying to help you with your problems, you apparent troubles in time and space. There is only one of us.

I WILL ACCEPT ATONEMENT FOR MYSELF.

Ok, we are going to finish this lesson.

Today we are trying to use a new kind of "projection". We are not attempting to get rid of what we do not like by seeing it outside.

This is a practice now. You have a tendency to dissociate from that which you do not like. Yes, obviously....., when you begin to do the practice what you see is that that what you do not like is yourself. It is self evident. Yes, of course!

The thing that you do not like, that you are trying to disassociate from is you. Yes, or Jesus says; what you made of yourself, which is the same thing.

What are you? You are what you've made of yourself. Ok, it is what you think you are.

Now the correction is, are you ready for the correction? You are not what you made of yourself. It is not what you are. But first, obviously, forgiveness now, the requirement is going to be is to recognize, that everything you see, is what you made of yourself.

This is what you call a new way of seeing: where you are joining with what you see, rather than dissociate from it. Alright? You only need to do this in one. When you see it in one, you see it in all,

....Instead we are trying to see in the world what is in our minds, and what we want to recognize is there.

This is exactly why you can't escape by dying. You think you can escape by dying because you are trying to avoid yourself. It is not possible; you can only escape by reconciling yourself, with yourself. We call that forgiveness. That is how you get out. By reconciling this with what you think as the alternative. There is no alternative, because this is all there is, and all there is, is light.

You are simply mistaken with what you think it is. And that is all, and that is what is being corrected. There is an integration going on. The light is with you, because the light is in you, because the light is what you are. Ok? Because God is in everything I see because God is in my mind.

Are you ok? Are you all with me?

--- We are trying to join with what we see, rather than keeping it apart from us. And that is the fundamental difference between vision and the way you see.

The fundamental difference between vision and the way you see is that you are trying to join rather than dissociate with what you see. That is vision, and that is what is being offered you.

...Today's idea should be applied as often as possible through out the day. Whenever you have a moment, repeat it to yourself slowly, looking about you, and trying to realize that the idea applies to everything you do see now, or could see now if it were within the range of your sight.

Real vision is not limited to concepts such as "near" and "far". To help you begin to get used to this idea, try to think of things beyond your present range as well as those you can actually see, as you apply today's idea.

Real vision is not only unlimited by space and distance, but it does not depend on the body's eyes at all.

So there appears to be an idea that is listening to this session in Venezuela.

Where is Venezuela? In my mind!

Where is that idea that there is someone listening in Venezuela? In my mind!

Where is the communication occurring? In my mind!

Where is the connection occurring? In my mind!

Where is the light of that connection occurring? In my mind!

Now you are looking at the frequency. See how easy it is? It is a frequency.

Where is your little girl? In my mind, right here with me, of course, there is no distance, separation, there is no location!

Where are my children? With me, in my mind!

Now I guarantee you; Accept that idea now and when you, apparently, call them latter on, your relationship with them would have change completely. I promise that's how it works. I promise that if you accept the idea, because it is true, the reflections will also change. It will align itself with your vision. I promise you, it happens all the time.

It is what this place is. It is the Cel. It is the place where that reconciliation is occurring all the time. Yes, we welcome everyone here!

Why, because everyone is in the mind, and we are taking everyone home!

That is what this place is; is a transitional location in consciousness, where everyone is welcome.

Why? Because it is occurring singularly at this frequency of transition, yes, from time to eternity; from dreams to awakening...from hell to heaven.

I love you guys, nice to be heard!

Real vision is not only unlimited by space and distance, but it does not depend on the body's eyes at all. The mind is its only source. To aid in helping you to become more accustomed to this idea as well, devote several practice periods to applying today's idea with your eyes closed.....

What is happening at this place? I am going to share this with you: we are remembering one another, that is what is occurring in this transitional place, we are remembering one another, as what you will call Sons of God. That is what is happening here.

There is a communication going on and that communication is light, that communication is love, that communication is freedom. That communication is peace; that communication is present!

Thank you, I love you. All of the obstacles have been removed.

Jesus teaches it as: We have reached the place where all of us are one. This is the end of dreams. I love you, thank you, thank you!

All of your loved ones are here with you; they are in your mind. Thank you.

The healing of your mind, that sacred place, where all of your thoughts are reconciled in God!

I love you guys, thank you, thank you, thank you! I think we are going to have a little quite meditation... thank you for joining with me.

We are gathering here in this circle of atonement, and that is where you find yourself.

Thank you.

Is everyone ok? Thank you, thank you.
