

How to remember God

September 10, 2008

(I am Talking to the peanut butter....)

I learned a long time ago, that there are always cues or signs that are reflections of changes in consciousness, and this is a perfect example. Every time there is an apparent shift in consciousness that is profound, there is always a reflection in the world or in the context of the dream.

For instance, you are here... and there's this, this wind, it's not a coincidence, there are no coincidences. Every thing happens, happens for a reason! All you do, using this, is learn to become more aware, more sensitive, to the cues which are all around.

God's voice speaks to me all throughout the day... What is this? God's voice is speaking to me; God's voice is telling you something! He's got something to say to me:

"When you get closer to the light I will show you the sign. The miracles are signs and they are all around you!" And as soon as you get closer to the light you will be given the certainty of reflections which are indications that you are on the right track, on the right path, you're moving in the right direction.

And sometimes, for many, it takes different shapes depending on where you are individually, for some it takes the form of sickness. What is sickness? Sickness is a miracle! **Sickness is a form of Grace!** We can teach it in those terms. Why? It is an incentive, or an impulse to find some where else. Is a way that God is speaking to you in order to direct you

When you become more sensitive to the signs, which are always benign, you see that they are benevolent. There are signs all around you, and what you see, as you advance in this, is that they are benevolent, they're benign.

Every thing is showing you the light and the love of God within the context of your dream. And that's what I am, and that's what this provision is. This provision for you is a sign, a wholly benevolent sign or reflection, or an indication or a miracle that you are in the right track that you're going home. That you're waking up! Trust me with this. That is an individual matter that has only to do with you. You are the one that is awakening. Everything else is an effect of your intention to awaken. I mean everything! Everything around you is an effect of your intention to awaken, so when you decide to awake you end up here at this frequency, and this frequency is supporting you in your transition. Why? It's a reflection it's an effect of your intention to awaken!

Jesus would teach you: **you've given all the power that it has...**

You say; "I want to awaken..." And suddenly the provision appears to support you!

Where did the provision come from? It came from you. You asked for it you desired it, you indicated an intention! God heard, the universe heard, and responded.

What is going to happen obviously, is that you are going to be shown a miracle, a sign, and you're a little bit afraid because you looked at the power of your own mind. You looked at the power of God which is in you, and that is frightening, because it is all powerful. And you're not quite ready to assume that much power, so you kind of back step a little bit. And you say: "Thank you,.... I think I'll have a cup of coffee....." Do you see what happens? That's all good!

Jesus will say: *You are given exactly as much as you can accept.*

What I try to show you, here, is that you are being given everything All the time, and you're making the decision of how much to accept. The light is all around you, in other words, because the light is in you, and you're making the decision how much Light, how much Love, how much Power, you are ready and willing to receive. Still is going to be you making the decision.

You are in a place, in a provision which is a reflection of the answer in its entirety.

The answer that you're seeking is here, not here in this place, this place is only a reflection, but here in this frequency.

In this frequency is the answer that you're seeking. This frequency will reveal to you that you are the dreamer of the dream. This is what I'm really offering you here in this place. The awareness that you are the dreaming this dream, and you are deciding on the outcome and you're getting exactly the outcome you've decided already.

Now, the fact that you are here is an indication, to me, that you've made the decision to awaken or you couldn't be here. It is impossible to be here without having already decided to wake up. How do I know? I am here! And if I am here, you must have made that decision. Because that is what I am; a provision for that. I am a helper sent by God in order to assist those that are making a gesture for awakening. So I am a catalyst or an agency or Holy Spirit, for awakening.

You are awakening yourself. I'm not really awakening you. Your awakening is between you and God. I'm only a catalyst or a sign, or Holy Spirit or a miracle. The Holy Spirit is offering you the resolution in some shape or form all the time. I just happen to be a particular shape that you are ready to accept. You still need words so here I am, providing you this environment where you feel safe, secure. You are the one that is making the decision!

Jesus would teach you **"You're awakening yourself"**; you're doing it, because the power to awaken is in you, and this is the power of God. It is in you, and when you're ready, you will be given evidence.

It's working. It is not a mistake that you're here. I'm trying to prepare you for this weekend, because by the end of this weekend you will have mastered your dream, you will have mastered by accepting responsibility. That's how you master. You're responsible for all of the effects of your own mind.

That's a huge responsibility isn't it? Are you responsible for the world? All together! Absolutely! All that is contained, is contained within you? That's big! Isn't it? Are you ready for that? Not quite sure... Maybe one more cup of coffee...!

Obviously you need help and the help that you're seeking is here. I'm just simply teaching to recognize that the help is here. Whenever you ask for help the response is immediate.

What does the response look like...? It looks exactly like this, or exactly as whatever it is that you're associating with in any moment. That's the answer! The answer is always given you! The answer always takes shape within the context of your dream. The answer is always a miracle! And the miracle is always a reflection of the power that is in you...!

Is this happening to you? Not as fast as you would like it to, but is happening! It's faster than you know. Trust me! It has picked up speed. You can feel it! It is almost like there is a momentum. Lylian & I woke up very early this morning and while lying in the haemic, there was a distinct knowing, that it is accelerating. A distinct feeling of acceleration!

What is all this wind? Someone turned on the engine, and there is some movement. Pay attention! You'll see it!

Just a little bit I want to read:

Chapter 12, section 2.

The way to remember God

Miracles are merely the translation of denial into truth.

How is that accomplished? We teach it this way: There is another way of looking at the world, there is another way of seeing this. You can see it as a reflection of your intentions, and when you can see it that way, that's a miracle! Because you see is an effect. That you are not bound by it, that you are not a victim of it, that it is an effect of your mind, and you can see that, with absolute clarity. I'm teaching you to see that, because that is all you need. You've forgotten, you've covered your eyes. I'm showing you that you're responsible. That it is all an effect of an idea of your own mind, and that is the miracle. Whenever that occurs, that is a miracle!

This is fertile ground for miracles! What is "El Portal" ? Fertile ground for miracles. If you come here expect a miracle! Because miracles is all that happen here! Don't be confused by the shape it takes. All that is going on here is the miraculous and every one is experiencing it in an individual form, because everyone's dream is individual. Your dream is an individual dream, and the miracles you are experiencing have to do with your dream. You will recognise it and you will know, and you will share it with others that also are experiencing miracles. It is important that you see that it is individual, so you really can't judge what is going on in others dreams. What is happening with Emilio? Miracles! End of story. And what happened when you fell and broke your leg? A miracle! Who is going to judge that? Nothing bad happened to you. Miracles are the only thing that is happening in this place! How do I know? I am that. Because that is what I am, what I'm generating. The only way you are going to awaken is by braking

your leg. How do I know? Because you broke your leg! I am working from the other way, from outside and I am showing you that happens to you, happens for a reason and is in your best interest!

... Miracles are merely the translation of the denial into truth. If to love oneself is to heal oneself, those who are sick do not love the selves. Therefore, they are asking for the love that would heal them, but which they are denying to themselves. If they knew the truth about themselves they could not be sick. The task of the miracle worker thus becomes to deny the denial of the truth.

How do I do that? First thing I do is come in and say “**you are no guilty**”. You think of sickness as cancer, no, I am not talking about that. I am talking about the smallest discomfort the slightest sign of sickness. And why did you find it? because it is a form of guilt. So you come in and say

-“ but I am a sinner”. No, you are not guilty.

- “I am offending God”! It’s impossible to offend God. You are not guilty. You have done nothing wrong! You are not guilty.

-“ but I’m trying to awaken and I can’t”. Don’t worry about it. You are not guilty. God is here with you, assuring you that everything is OK. You are OK exactly as you are. You have done nothing wrong.

This is how we increase frequency. We accept you exactly as you are. We may make corrections but the corrections that we are making, in the light, are corrections that you are asking for. You’re asking to be corrected! How do I know? Because you come to me and you’re unhappy, if you’re unhappy you are asking for correction.

Jesus is going to say: “*Your call for help is a petition for Love.*”

You are asking for love. ¿How do I know...? Because you’re unhappy! When you find love you are happy!

All I am trying to do is offer you a continuous correction. And that correction is Love, it is light.

It is all there is.

...The sick must heal themselves, for the truth is in them.

This is Jesus now, when He apparently healed de sick, “*I did nothing your faith has saved you*” “*the truth is in you*”. I am not doing anything the truth is in you! You are healing yourself! All I am is an atmosphere for that healing to occur, I a place where the healing occurs. I am generating a field where that healing occurs. I’m creating the space. This is exactly what “El Portal is. It is an open door. It’s simply a space where you can safely enter and heal yourself as you remember God. This has nothing to do with the body.

A broken leg? I don’t know what you mean. It has nothing to do with your body; it has to do

with you healing yourself and taking responsibility.

.... The sick must heal themselves, for the truth is in them. Yet having obscured it, the light in another mind must shine into theirs because that light is theirs.

What am I doing here? This is what I'm doing...

Yet having obscured it, the light in another mind must shine into yours because that light is yours. And this is what you have discovered, there is only one self, there is only one light there is only one love... and it is yours

...The light in them shines as brightly regardless of the density of the fog that obscures it

And here is how you awaken:

If you give no power to the fog to obscure the light, it has none for it has power only if the Son of God gives power to it. He must himself withdraw that power, remembering that all power is of God. You can remember this for all the Sonship. Do not allow your brother not to remember, for his forgetfulness is your own. But your remembering is his, for God can not be remembered alone.

God can not be remembered alone". Enlightenment is not for you alone!

Jesus says: *This is what you have forgotten, that God can not be remembered alone.*

...To perceive the healing of your brother as the healing of yourself is thus the way to remember God. For you forgot your brothers with him, and God's Answer to your forgetting is but the way to remember.

Jesus tries to teach this in another section; **"You will awaken as you learn to awaken others"...** and that's what we are offering here! This is the school for awakening! You can teach it in those terms...This is what the transition is! You are learning to awaken others by awakening yourself. How do you awaken others? by depending on God. What am I doing now...? Depending on God! I am not doing anything! I am a vehicle for Grace! Of myself I am nothing. You will awaken. You will remember God as you learn to awaken others, and you learn to awaken others by depending on God. How else are you going to do it...? You can not do it any other way! This is what teaching is all about. I'm not trying to teach you something that you don't know. I'm teaching you by demonstrating my dependence on God!

And you will awaken others by depending entirely on God...! ¿Why are you here...? I am here in service. I am here on His behalf...! I am not here to live a human destiny... I am here to serve Him! And the way to serve Him is to awaken others! And as your brother is awakened you awake along with him...! You can not awaken alone!

Serve others and thereby serve God and serve yourself!

In love
